

## FIRE PREVENTION RULES

The facility is in good working condition, but accidents can always occur, so can fire. Please keep in mind,

- Don't Smoke in the rooms!
- Only use electrical machines in good working condition!
- Don't use your own heater, iron or coffee machine!
- Don't prevent the ventilation of heat generating instruments!
- Don't cover the lamp with flammable clothing or decoration!
- Don't use pyrotechnical materials!
- If you find any fault in the electrical instruments, turn it off immediately!
- Fire starting is on the whole area of the Hotel strictly prohibited!
- Gas cans in the rooms are not allowed!

In Case of fire or smoke proceed as follows:

Immediately inform the Receptionist.

Call the Fire Department as soon as possible! You can use the telephone at the reception desk.

Leave the building on the natural path (stairs, corridor)! (See shown on the door)

If you are the first one to notice the hazard, inform personal and other guest immediately!

Make notice of the panic free movement, because it is much faster for leaving the building!

If the route to the exit is blocked, assure that the room is smoke free:

- open the window(s),
- block door edges,
- prevent the fire from entering the room by pouring water on the door.

Fire preventing tools at hand:

- fire hydrant on the wall
- fire extinguisher on the corridor

Protect yourself from smoke by putting a wet napkin in to your mouth!

**In case of emergency following numbers should be called 105 or 112.** Please be informed that your call will not directly reach the local fire department, so always state your location (Sopron).

**In case of a fire notification always mention:**

- Exact address: Hotel Palatinus, 9400 Sopron, 23 Új street
- What's burning?
- How big is the fire?
- Is it life threatening?
- your name and phone number.

Above mentioned scenario is not to scare you, but to make your stay more relaxing.

If you have any concerns or worries feel free to ask the Hotelmanager or staff for assistance!
